II. Mining and Reclamation

1. Was there any mine related activity during the past year? Yes ☐ No ☒
2. If no - what was the last year of activity? 1991
3. If yes - how much ore or mineral was mined? _____

4. Briefly describe the type of work performed, volume of material moved, and any new or additional surface disturbances that occurred during the past year.
None

5. How much **additional acreage** was disturbed during the past year? None
6. How much acreage was **reclaimed** during the past year? None
7. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.
Removal of any scrap or undersirable material around tailing
impoundment, repair surrounding fence, spray the entire area as needed
for knapweed.

8. What is the **total disturbed acreage of entire project** at years end? Approx. 65 acres
reclaimed tailing with 40% plus cover.
9. Briefly summarize any mining and/or reclamation plans for the upcoming year.
No mining will be done. Reclamation plans are to evaluate tailing
impoundment plant growth and spray for knapweed if needed. If the
tailing impoundment reaches the required vegetation cover the fence
around it will be changed and the access road scarified and re-seeded.

NOTE: Section III, "Additional Information" applies only to **large mining operations**.

III. Additional Information

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.

IV. Signature Requirement

I hereby certify that the foregoing is true and correct.
